# Ask Your Vet About the Benefits of Standing MRI

## Oklahoma Equine Hospital

- ◆ **Safe**  
Standing MRI exams are performed without the associated risks of general anesthesia.
- ◆ **Cost Effective**  
Standing MRI exams result in an immediate, accurate diagnosis in more than 90% of cases resulting in fewer trips to the vet and less risk of making an injury worse before a problem is diagnosed.
- ◆ **Accurate**  
Due to exceptional detail of both the soft and bony tissues, MRIs can identify soft tissue injuries in the feet and high suspensory — injuries which are not identifiable any other way.
- ◆ **Fast**  
Standing MRI allows a vet to pin point regenerative medicine therapies allowing the horse to return competition in a short period of time.
- ◆ **Versatile**  
Oklahoma Equine Hospital can send imaging to the vet of your choice for diagnosis and treatment, or can diagnose and treat your horse on site.
